

Client: The Blue Kite

About: Established in 2019, The Blue Kite is a home rental company that connects travellers with thoughtfully managed holiday homes across India. They focus on transparency, comfort, and reliability — ensuring every stay feels seamless, welcoming, and consistent.

Services: Print and Digital Collaterals

Welcome to

the **blue kite**

We're dedicated to responsible practices, fostering harmony with nature during your stay

Waste Management

Trash talk! We sort ***4 tons of waste*** monthly, recycle responsibly, and our homes with compost bins cut ***40 tons of landfill waste*** while nurturing 51 tons of organic magic in our gardens.

Water Conservation

We provide fresh towels and linen every 3 days which saves ***126,000 liters*** per laundry cycle!

Central Cut-off

The Central Cut-Off Switch shuts off power in this villa (excluding the fridge) and conserves ***6000 units of electricity*** annually.

Chemical-free Community

We use WHO-certified eco-cleaning supplies for glass, floors, toilets, and more. They're safe for you and the environment.

Here's how you can be an eco-hero

Avoid Plastic
Skip single-use plastic bags when you shop; grab our eco-cloth bags from the guard room!

Waste Segregation
Become a garbage warrior! Use the labeled bins in the villas and toss food waste in the designated bins.

Conserve Electricity
Before you leave, flip the central cut-off switch to save electricity and the planet!
